

Balázs HORVÁTH

quasi ciaccona metrica

for amplified Trumpet solo and ensemble (amplified)

to Tamás Pálfalvi

2020

SCORE

© Balázs Horváth, 2020

Instrumentation

<u>Tromba sola in Do (amplified)</u>	<u>Tr. sola</u>
Flauto grande (anche Slide Whistle)	Fl.
Oboe	Ob.
Clarinetto in Sib (anche Clarinetto basso in Sib)	Cl.
Fagotto	Fg.
Corno in Fa	Cor.
Trombone	Trb.
2 Percussioni	2 Perc.
2 Violini	2 Vi.
Viola	Vla.
Violoncello	Vlc.
Contrabbasso	Cb.

Partitura in Do / All the parts are written in C (concert pitch)

Durata / Duration: ca. 7'30"

A darab alapötlete a chaconne-forma, melyben minden variációs szakaszban ugyanaz (vagy hasonló) harmóniai menet hallható a megfelelő ütemekben. A *quasi ciaccona metricában* a metrikai váltások többé-kevésbé ugyanazt a struktúrát követik. A szóló trombita hangsínbeli variációs egységei azonban nem feltétlenül követik a chaconne formáját, így e zenei paramétereknek egyfajta polifóniája jön létre.

A mű másik alapötlete a szóló trombita egyhangos zenei anyaga. A g' hang a C-trombitán három különböző fogással játszható. Artikuláció, hangsín, ritmus és metrum lehetséges kombinációi szigorú folyamatos pulzáció ketrecén belül variálódik a darab elejtől a végéig. Az ensemble a trombita anyagait kíséri, színezi, imitálja.

A trombita hangjai és a chaconne formája kombinációjának köszönhetően – néhány kivéttől eltekintve – a darab minden üteme egyedi.

A X. szakasz a trombitás improvizációja (időtartama szabad), melyet a két ütős kísér (eltérő hosszúságú loop-okkal). A szakaszt játszhatják hárman, lehet trombita szóló, de el is hagyható – a részleteket ld. a kottában.

Bemutató: Új Magyar Zenei Fórum, 2020, BMC, Budapest, 2020. október 10.

Pálfalvi Tamás – tr., UMZE Együttes, vez: Tihanyi László

The piece is based on the idea of a chaconne where each variation follows the same (or similar) harmonic progression in the corresponding measures. In *quasi ciaccona metrica* the metric changes more or less follow the same structure. The borderlines of the timbral variations of the trumpet solo does not always follow the chaconne variations creating a kind of polyphony between these parameters.

The other basic idea of the piece is the one-note material of the Trumpet solo. This pitch (G4) can be played in three fingering variations by the trumpet (in C). The possible combinations of the articulation, timbre, rhythm and time signature are created within the cage of steady pulsation from the very beginning to the end. The ensemble accompanies, colours and imitates the trumpet materials.

With the combinations of the trumpet sounds and the chaconne form each measure of the piece is unique – apart from a few repetitions.

Section X of the piece is improvised by the trumpet player (free length), accompanied by percussions (non-corresponding loops). This section may be played by three of them, solo (trumpet) or omitted. See the details in the score.

World premiere: New Hungarian Music Forum, 2020, BMC, Budapest, October, 10, 2020.

Tamás Pálfalvi – tr., UMZE Ensemble, cond by László Tihanyi

Dinamika: A kottában szereplő dinamikai jelek a játékosok által megszólaltatott hangerőt jelentik. Ezért egyes szólamokban a dinamikai jelek időnként segédjelzéssel láthatók: ***mf (= p)***, ami azt jelenti, hogy a játéknak mezzoforte dinamikával kell játszani, ami az adott körülmények között piano fog szólni. Ennek oka a speciális játékmód (pl. nyelv-pizz., csak levegőfúvás (zaj), stb.) vagy a rézfűvősök által használt sordino.

Erősítés: a szóló trombitát elegendő mértékben erősíteni KELL ahhoz, hogy elektronikus hangnak tűnjön a hangja. Az ensemble hangszeréket érdemes erősíteni, hogy a szólistával mind hangerőben, mind hangsínben arányban legyen.

Dynamics: The dynamic markings in the score are performers' dynamics. Therefore auxiliary dynamics are to be found at certain points in some parts, e.g. ***mf (= p)***. This means that the musician must play mezzoforte, which will sound piano in the given circumstances. The reasons for this are the special playing techniques (e.g. tongue-pizz., just breathing out (noise), etc.) or the mutes used by the brass players.

Amplification: the trumpet solo MUST be amplified well enough to sound as an electronic sound source. The instruments of the ensemble may be amplified to balance the loudness and timbre of soloist and ensemble.

Jelmagyarázat

Tutti

Glissandok: a csúszás a kezdő és érkező hangok között teljes időtartam alatt történjen meg.

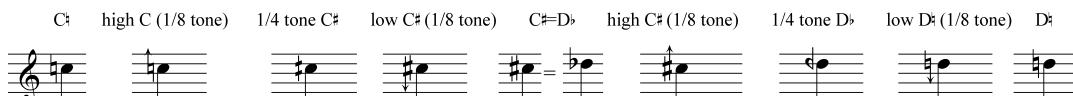

Negyedhangok vagy kisebb hangközök: a darabban szereplő negyedhangok vagy ennél kisebb hangközök jeleit ld. alább (ezek közül nem szerepel mindegyik a műben):

Explanations of the special signs

Tutti

Glissandi: the slides are to be played at the complete duration between the starting and the arriving notes.

Quarter-tones or smaller intervals: the quarter-tones or even smaller alterations are shown as below (not all of these signs can be found in the piece):

Trombita szóló

A 2-es piston kis U-csövét el kell távolítani. A helyére egy másik trombita 1-es U-csövét kell beilleszteni, de csak az alsó lukba betolva.

A trombitát kellő mértékben hangosítani kell, hogy a hangszínbeli jáék hallható legyen. A legjobb megoldás az, ha a korpusz szélre egy kis kardioid mikrofont csippentenek. Egy másik mikrofont pedig a eltávolított 2-es piszon U-csövére kell csíptetni.

Notáció:

- 1) hangmagasságok: a darab egy hangmagaasságra – g' – épül. Az ajak- és énekelt glissanduktól eltekintve a szóló stimmiben csak ez a hangmagasság szólal meg. A g' a *kis c* trombita alaphang 3. összetevője, ezért e hang megszólaltatása lehetséges billentyű lefogása nélkül (0) vagy 1+3 fogással is. (Az eltávolított 2 piszon-cső csak a hangszínt módosítja.) A darab nagy részében nincs a g' notálva (a sor üres), hogy könnyítse az olvasást. Ötvonalas sor csak az énekelt szólam esetén jelenik meg.
- 2) ritmus és ütemmutató: a darabban végig egy szigorú (tizenhatod) lüktetés hallható. Találd meg a számodra kivitelezhető leggyorsabb tempót (szimpla-nyelv), és tartsd ezt végig. (A végleges tempó lehet a 108-as BPM feletti). A fix lüktetés minden hallható legyen a staccato (szimpla-nyelv) és legato játékmód különbsége ellenére.
- a legtöbb esetben pontos ütemmutató látható, melyet pontosan tartani kell. (A hangcsoportok elején látható számok a hangcsoport követését, számolását segítik.)
- az ütemmutató nélküli ütemeket (**in1**) bármilyen hosszan lehet játszani, amíg elérsz a következő hangzási pozícióba. Azonban ne legyenek ezen ütemek túl hosszúak.

X szakasz (m. 231): szabad improvizáció a korábban használt elemekből. Dúsan de szabadon játssz, tartva a pulációt. (A szakasz hossza rád van bízva, de a javasolt hossz max. 20-30 másodperc.) Az improvizált ütem akár el is hagyható, vagy szólóban is játszható.

Trumpet solo

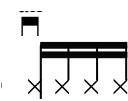

The small U-tube for valve "2" must be removed. Valve "1" of another trumpet must be installed instead ONLY into the lower open tube.

Trumpet must be properly amplified so that the timbral mostions can be presented. The best solution is to clip one small cardioid microphone on the edge of the corpus. Another one is also needed to clip on the edge of the removed tube of valve 2.

Notation:

- 1) pitches: the piece is based on one single pitch – G4 (a fifth above the middle C). Only this pitch is heard in the solo part, apart from lip glissandi and voice glissandi. This G4 is the 3rd partial of C3 fundamental of the instrument therefore it can be played without any valve used (0) or 1+3. (The removed valve 2 changes timbre only.) There is no pitch notated in most of the piece (you can see staff without lines) not to disturb reading the the part. The five-line staff is used only when singing (voice) is added to the blown sounds.
- 2) rhythm and time signatures: there is a constant sixteenth pulsation. Find the possible fastest tempo for you (single tonguing) and keep it for the whole piece. (It may be faster than 108 BPM). You have to play staccato (single tongue) or legato but with this steady pulsation.
- in most cases you see exact time signatures that must be fulfilled sharply. (The numbers above the group of notes help to count the notes.)
- measures without time signature (**in1**) can be played any long until you reach the next position. However, these bars should NOT be too long either.

Section X (m. 231): you can improvise freely with the elements used before. Be very dense and free. (It can be any long but it is recommended not to play longer than 20-30 seconds.) However, this bar can be omitted or played only in solo version.

Levegőfúvás a hangszerbe (zaj) = kilégzés (ld. lefelé vonó jel).

Air sound, blow air only (noise) = breath-out through the instrument (see down-bow sign).

Levegőszívás a hangszeren keresztül = belégzés (ld. felfelé vonó jel).

Air sound, breath-in (inhale) through the instrument (see up-bow sign)

Vízszintes vonal: tartsd az adott pozíciót a következőig

Horizontal line means to keep the actual position until the next one

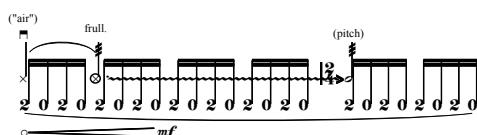

Hullámvonval nyíllal: interpolálj a következő pozícióba

Wave line with arrow means to interpolate to the next position

A számok az aktuálisan lenyomandó pisztont jelzik. Fokozatosan nyomd le az adott pisztont.

Numbers show the actual valve to be pressed. Press down the given valve continuously.

Csak levegőbefúvás (frullato közben) alternáló **2-0 pisztonnal**. Fokozatosan csússz át hangba (brűzölés) miközben frullatózol és 2020 váltakozik.

Blow air only (during frullato – flutter tongue) and alternating valve **2-0**. Move continuously into pitch (buzzing) while keep playing frull. and 2020.

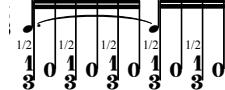

Legato; staccato írás- és játékmód: legato esetén a hosszabb érték (jelen példában negyed) mutatja az egy kötésre játszandó hangokat, a változtás pedig alatta olvasható (ventil vagy sordino, esetleg pumpálás). Staccato esetén minden hangot ütve (ld. a hosszabb hangérték hiányzik), de a változtásoktól néha függetlenül (jelen példában két ütés alatt kell tartani a 2 ventilt, majd elengedni)

Legato; staccato writing and playing: in case of legato the long note (see quarter-note) represents the length to play on one tongue-beat, the changes can be read below (valve or mute, or maybe pumping). In case of staccato beat each new note (see the lack of long note) sometimes independently from other changes (see holding valve 2 for two sixteenths and letting it up for two sixteenths).

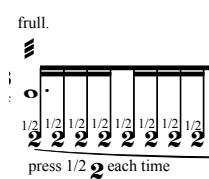

csak féligr nyomd le az adott pisztont (kissé zajos hang)

press the specified valves halfway only (noisy sound)

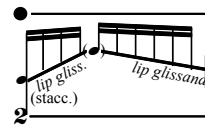

nyomd (pumpáld) az adott pisztont (1/2 2) mindegyik tizenhatod értékre

press (pump) the specified valve (1/2 2) for each sixteenth note.

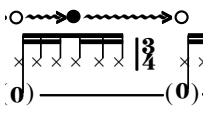

press 1/2 2 each time

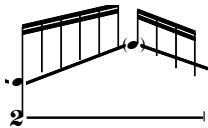

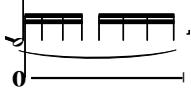

Tartsd, lassan változtasd vagy alternáld a korpusz takarását (üres=nyitva, teli=tenyérrel takarva)

Keep, slowly change or alternate the corpus-hiding position(s). (Empty circle=open, filled-in circle=closed by palm)

(●)○●○●○●○●○

ajak-glissando (felhang-gliss.) bármely magas hangig. Magasabb hangra is felcsúszhatasz, ha a gliss. időbeli hossza engedi.

lip glissando (overtone gliss.) up to a very high pitch. You may slide up to a higher one if the time requires so.

VOICE

Felső sor: ének hang, alsó sor: hangszer hangja. Énekelj (zümmögj) játék közben.

Top staff: voice, bottom staff: instr. Sing while playing.

Ének+hangszerjáték (a 2/4-es taktus első felében); CSAK éneklés a hangszerbe (az ütem másik felében)

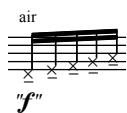

Sing+play (first beat of 2/4 bar); sing ONLY (2nd beat)

"pop" 6 ütögesd tenyérrel a fúvókát

pop onto the mouthpiece (beat it with your palm)

Fafúvósok

Csak levegőt fújj a hangszerbe (zaj) az adott billentyű lefogásával. (A hangmagasság irányát a szájtartás feszességével is kövesd, hogy a zajosan szűrt hangmagasság jól hallható legyen.)

slap

Nyelvütés – slap tongue (Cl.)

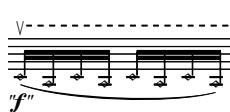

Nyelvütés – slap tongue (fg.: az S-csőre, nád nélkül)

Slide whistle (tolókás síp) – mindenkor a legalsótól a legfelső hangig csússz (Fl.)

bisbigl.

Bisbiglando (mikrotonális hangköztrilla) pontos, tizenhatod ritmusban.

Levegőszívás a hangszeren keresztül = belégzés (ld. felfelé vonó jel).

woods, brass, strings:
VOICE only

(loc!)

close and open your nose
with 2 fingers clipping (while singing G4 - g')

Ének „ü” hangzával (kb. **f**), miközben ritmikusan fogd be-engedd el az orrodat (hangszínváltozás). Kizárolag g'-t énekelhetsz, más regiszter ne szölljon. (Fafúvók, rézfúvók, vonósok.)

Woodwinds

Blow air into the instrument (noise) using the given fingering. (Follow the pitches with the tension of the mouth so that the direction of the filtered sounds is clearly audible.)

Slap tongue (Cl.)

Slap tongue (fg.: on the S-tube, without reed)

Slide whistle – gliss. always from the lowest to the highest possible pitch (Fl.)

Bisbiglando (microtonal intervallic trill) with exact sixteenth rhythm.

Air sound, breath-in (inhale) through the instrument (see up-bow sign)

Singing with the vowel ”ü” (ca. **f**), during you alternately clip and release your nose with 2 fingers (timbre-change). You may sing ONLY G4, no any other register should be heard. (Woodwinds, brass, strings.)

Rézfúvósok**Brass**

Trb.: szordínók plunger, wawa, harmon (wawa tüske nélkül)

Trb. mutes: plunger, wawa, harmon (wawa without stem)

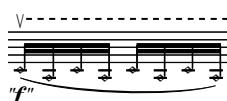

Gestopft; ord.: fojtva (kézzel); normál módon, nyitva (Cor.)

Gestopft; ord.: closed (with the hand); normally , open (Cor.)

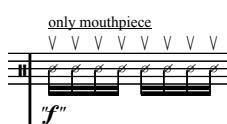

Nyitva; zárva (wawa vagy harmon sordino) – a jelzés a következő változásig érvényben van. A vízszintes vonnallal összekötött jelek fokozatos átmenetet jelentenek.

Open; closed (wawa or harmon mute) – hold the position until the next new sign. The signs connected by a horizontal line mean continuous change form position into the other one.

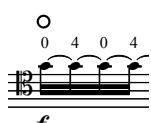

Levegőszívás a hangszeren keresztül = belégzés (ld. felfelé vonó jel).

Air sound, breath-in (inhale) through the instrument (see up-bow sign)

Vedd le a fúvókát és azon keresztül szívd a levegőt (Cor.).

Remove the mouthpiece and breath (inhale) through the mouthpiece only (Cor.)

Kwartventil-trilla tizenhatod ritmusban. 0=ventil nélkül, 4=ventillel. A ventil lefogásakor a hangmagasság (bisbiglano-szerűen) kissé változik. (Trb.)

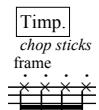

Fourth-valve-trill in sixteenth rhythm. 0=no valve, 4=with valve. Pressing the valve the intonation will slightly change (bisbiglano-like). (Trb.)

woods, brass, strings:
VOICE only

(loco!) close and open your nose
with 2 fingers clipping (while singing G4 - g')

Ének „ü” hangzával (kb. **f**), miköben ritmikusan fogd be-engedd el az orrodat (hangszínváltozás). Kizárolag g'-t énekelhetsz, más regiszter ne szölljon. (Fafúvók, rézfúvók, vonósok.)

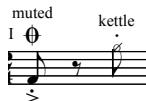

Singing with the vowel "ü" (ca. **f**), during you alternately clip and release your nose with 2 fingers (timbre-change). You may sing ONLY G4, no any other register should be heard. (Woodwinds, brass, strings.)

Ütősök

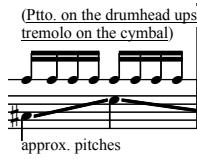

Timpani: a kávát üsd

Percussion

Timpani: beat on the frame

Timpani:
– tenyérrel teljesen lefogva (zaj)
– a hangszerestén ütve

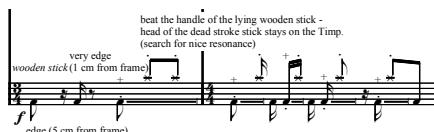

ét. / l.v.

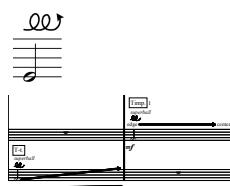

Helyezd a réztányért fejjel lefelé a timpani bőrére és üsd a fenti ritmust, miközben a timpani pedállal glissandózol nagyjából (!) a megadott hangok között

Dead stroke (általában merőlegesen / függőlegesen tartott verővel, ld. a kottában).

Tartsd a verőt a Timp. bőrön az ütés után (normál hangfej) a hang után (dead-stroke), és üss a pihenő verő nyelére a másik verővel (x-fejű hang). Keress a nyélen olyan helyet, ami szépen rezonál. Találd ki a megfelelő kézváltásokat (bal-jobb) a bőrzpozíciók megtartásához (lefelé szárú hang=5 cm a kávától / felfelé szárú hang=1 cm a kávától).

Dörzsöld / karcold a hangszer Superballal:
– Tam-tam: keress olyan ívet a hangszeren, amivel emelkedő hangmagasságot tudsz kreálni.
– Timp.: szélről közép felé húzd a superballt, hogy a hangmagasság lehetőleg mélyüljön.
Fémmel: bármilyen irányú karcolás (Sizzle)

∅

Muted: tartsd lefogva a cintányért ütés közben

Timpani:
– mute with hand totally (noise)
– beat the kettle

Place the cymbal upside down on the Timpani and play the top rhythm on it, while moving the pedals for glissando approximately between the given pitches.

Étouffez = stop the resonance. / Lascia vibrare = let the sound vibrate

Dead-stroke (generally with the stick hold perpendicularly / vertically, see the score)

Keep the stick on the head if the Timp. (normal note-head) after the sound (dead-stroke) and beat on its handle with the other stick (x-headed note-head). Make out a good position on the handle for nice resonance. Create the hand system (left-right) following the skin positions (stem down=5 cm from frame / stem up=1 cm from frame)

Rub / scratch the instrument

Superball:

- Tam-tam: find a curve on the instrument where you can create a rising glissando.
- Timp.: move superball from edge towards center to create a falling glissando.

Metal stick: scratch in any direction (Sizzle)

Muted: keep the cymbal muted by hand during the beats

Percussione 1.

Hi-hat, Sizzle, Vibraslap, Bongo, Tamburo piccolo (con corde – kisdob húrokkal), *Tamburo basco* (csörgődob – kézben), *Piatto sospeso* (függesztett cintányér – függőlegesen tartott kisdobverővel „karcold” a cintányér felületét), *Flexatone* (csak 1 ütés – a hangszer saját kis golyójával vagy fém verővel; tizenhatodos ritmusú lüktetésre rázva. A legfelső hang helyét a glissando időbeli hossza határozza meg: mennél hosszabb a gliss., annál magasabba menjen a hangmagasság.), 2 *Nipple Gongs* (asz, desz’ – 2-2 különböző verővel a kézben),

Verők: *hard mallet, soft mallet, wooden stick, metal stick*

Notáció:

The image shows musical notation examples for several percussion instruments:

- Hi-hat:** Played with a wooden stick.
- Sizzle:** Played with fingers or a hard mallet.
- Vibraslap:** Played with a metal stick.
- Bongo:** Played with a wooden stick.
- Tamb. picc.:** Played with a soft mallet.
- Tamb. basco:** Played with fingers or a wooden stick, with a beat indicated by a wavy line.
- Ptto. sosp.:** Played with a wooden stick or metal stick, keeping the stick vertically on the dome.
- Flexatone:** Played with a metal stick, with a note indicating "1 beat only".
- shake on rhythm:** A rhythmic pattern indicated by a wavy line above the notes.
- 2 Nipple Gongs:** Played with a hard mallet.
- wooden stick:** Indicated by a wooden stick icon below the notation.

Percussione 1.

Hi-hat, Sizzle, Vibraslap, Bongo, Tamburo piccolo (con corde – Snare Drum with snares), *Tamburo basco* (Tambourine – hold in hand), *Piatto sospeso* (Suspended cymbal – “scratch” the surface of the cymbal with a vertically hold snare drum stick), *Flexatone* (1 beat only – either with the small ball of the instrument or with *metal stick*; shake on the sixteenth rhythm. The highest pitch is determined by the duration of the glissando: the longer the duration the higher the pitch should be.), 2 *Nipple Gongs* (a-flat3, d-flat4 – 2+2 different beaters in hand),

Beaters: *hard mallet, soft mallet, wooden stick, metal stick*

Notation:

Percussione 2.

2 Timpani, Ptto on Timpani (függesztett cintányér fejjel lefelé a Timpani bőrén), *Beer Can* (sörösdoboz – kb. 3-5 literes), *Wood-block* (magas), *Guiro*, *Bottle* (beföttes üveg – az üveg fenekeit üsd), *Log Drum* (2 nyelvvel – 2+2 különböző verővel a kézben), *Tam-tam*,

Verők: *chop sticks*, *soft mallet*, *wooden headed mallet*, *rubber headed mallet*, *wooden stick*, *hard timpani beater*, *xylo mallet*, *superball* (kemény fém vagy műanyag nyéllel)

Notáció:

The image shows musical notation examples for various percussion instruments:

- 2 Timp.**: Two staves for timpani. Staff I uses a "hard temp. beater" (mallet) on the frame. Staff II uses a "superball" (soft mallet) on the frame.
- chop sticks frame**: A single staff showing a "chop sticks frame" being struck.
- hard temp. beater**: A single staff showing a "hard temp. beater" (mallet) hitting a kettle.
- nail-flick**: A single staff showing a "nail-flick" technique using a wooden stick.
- I**: A single staff showing a "nail-flick" technique using a wooden stick.
- II**: A single staff showing a "hard temp. beater" (mallet) hitting the "very edge (1 cm from frame)" of a timpani.
- edge (5 cm from frame)**: A single staff showing a "hard temp. beater" (mallet) hitting the "edge (5 cm from frame)" of a timpani.
- approx. pitches**: A single staff showing a "hard temp. beater" (mallet) hitting the "edge (5 cm from frame)" of a timpani, resulting in "approx. pitches".
- Beer Can**: A single staff showing a "wooden headed mallet" hitting a can.
- Woodblock (high)**: A single staff showing a "wooden headed mallet" hitting a woodblock.
- Guiro**: A single staff showing a "Guiro" instrument being scraped.
- Bottle**: A single staff showing a "xylo mallet" or "rubber headed mallet" hitting a bottle.
- Log Drum (2 tongues)**: A single staff showing two "soft mallets" hitting a log drum.
- T-t.**: A single staff showing a "handle of superball" being struck with a "dead stroke".
- superball**: A single staff showing a "superball" being struck with a "dead stroke".
- Timp. I**: A single staff showing a "superball" being struck with a "dead stroke" on a timpani, with an arrow pointing from the "edge" to the "center".

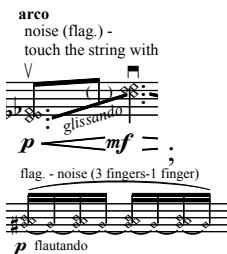

Percussione 2.

2 Timpani, Ptto on Timpani (suspended cymbal upside down on the head of the Timpani), *Beer Can* (c. 3-5-liter), *Wood-block* (high), *Guiro*, *Bottle* (Jar – beat the bottom of the jar), *Log Drum* (2 tongues – 2+2 different beaters in hand), *Tam-tam*,

Beaters: *chop sticks*, *soft mallet*, *wooden headed mallet*, *rubber headed mallet*, *wooden stick*, *hard timpani beater*, *xylo mallet*, *superball* (with hard metal or plastic handle)

Notation:

Vonósok

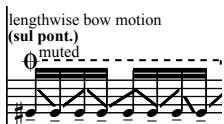

Flageolet az adott hangoknál (zajos!) – a felhangok éppen csak hallhatóak, a hangzó eredmény inkább szűrt zajhoz hasonlítson;
– emelgesd az ujjaidat a kotta szerint fel-le, hogy változzon a szürés jellege.

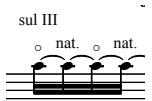

Préselt vonó (a játékmód csak az adott frázisra vonatkozik).

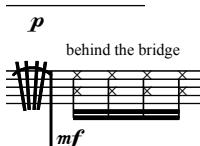

Takard a húrokat (érintve) több ujjal (zaj)

Hosszanti irányú vonómozgás – a nyíl a vonó irányát mutatja a hangmagasságoknak megfelelően: nyíl jobbra fel = ponticello irányába történő mozgás, nyíl jobbra le = tasto irányába történő mozgás. (Takard, némítsd a húrokat a hang közben.)

Váltogasd az üveghang és a lefogott nyomást (hangszínváltozás).

A láb mögött – az adott hangmagasság a megfelelő húrt jelöli (az eredeti kulcsod szerint).

A lábon húd a vonót (zaj).

WOODS, BRASS, STRINGS:
VOICE ONLY

close and open your nose
with 2 fingers clipping (while singing G4 - g')
+ O + O + O + O + O + O + O

(locally)

Ének „ű” hangzával (kb. **f**), miköben ritmikusan fogd be-engedd el az orrodat (hangszínváltozás). Kizárálag **g'**-t énekelhetsz, más regiszter ne szóljon. (Fafúvók, rézfúvók, vonósok.)

Strings

Flageolet with the given pitches (noisy!)

- the overtones may slightly be heard, the sound should rather be as a filtered noise;
- touch and lift your fingers following the score to change the quality of the filtering.

Pressured bow (valid only for the given phrase).

Touch the strings with more fingers (noise)

Lengthwise bow motion – the arrow shows the direction following the pitches: arrow right up means bow moves toward ponticello, arrow right down means bow moves toward tasto. (Mute the strings meanwhile.)

Alternate flageolet and natural finger-pressing (timbre change).

Behind the bridge – the given pitch represents the adequate string (reading in your original clef).

Move the bow on the bridge (noise)

Singing with the vowel ”ű” (ca. **f**), during you alternately clip and release your nose with 2 fingers (timbre-change). You may sing ONLY **G4**, no any other register should be heard. (Woodwinds, brass, strings.)

IMPROVISATION - options for m. 231:

- 1) Follow the trumpet improvisation and continue on the trumpet player's (or conductor's) sign.
- Tr. sola: Improvise with the materials used previously (lip positions, fingerings, timbres, voice possibilities etc). See the examples on the next page*
- Percussioni: play the written material and repeat it when you get to the end. (The 2 players will repeat in different versions).
- ensemble: play only on the first beat of m. 231
- 2) Only trumpet soloist plays improvisation (see above) - no percussionist or ensemble player plays
- 3) skip m. 231 and move on to m. 232
